

Ring Sizer

Make sure you don't have "Scale to fit page" on when you print.

Instructions:

- Print out the page and cut out the ringer sizer above. Make sure to cut out the small slit that is below the arrow.
- Place the ring sizer onto your finger and push the pointed end through the slit below the arrow, with the numbers up.
- Pull the pointed end until the ring sizer is snug around your finger. Make sure it's not too tight or too loose.
- Your ring size should now be displayed below the arrow.

Measure your finger by wrapping a string around it. Find the length of the string that makes exactly one loop around, and use the chart below for reference.

If you are giving the ring as a gift and don't have the finger to measure, use a ring from their collection. Place ring on correct size circle below. The correct circle size should fit right against the inside edge of the ring.
